

DID YOU KNOW

Utah has a vaccine registry that you can utilize to look-up and share vaccine information for your patients?

WHO IS USIIS (Utah Statewide Immunization Information System)?

- Free, confidential, web-based information system with provider review/amending privileges, containing immunization histories for Utah residents of all ages.
- Information system compliant with HIPAA and state laws to protect patient privacy.
- Authorized by state rule R386-800.

WHAT ARE THE BENEFITS FOR PROVIDERS?

- Optimization opportunity: reduction of missed immunization, expenses & risk of over immunization, & vaccine waste. Comparison of administered vaccines vs vaccines billed, & breakdown of complex immunization schedule via Forecast Program.
- Captures new vaccines and changes in schedule implemented by the CDC (Centers for Disease Control & Prevention) based on ACIP's (Advisory Committee on Immunization Practices) recommendations.
- Easy access for health care providers, pharmacies, schools, licensed childcare services, & public programs to enter/view vaccine information.

WHERE TO SIGN UP?

- Visit USIIS website: <https://immunize.utah.gov/usiis/usiis-provider-facilities>, complete & submit the USIIS Provider Facility Enrollment Agreement form.
- Read the USIIS Confidentiality and Security Policy.
- Each user needing access to the system must complete, sign, and submit a USIIS User Confidentiality and Security Agreement. Follow the instructions on the forms to submit your requests.
